

Seeking applicants to join Casey House's Finance Committee of the Board

Casey House is Canada's first and only stand-alone hospital for people living with HIV/AIDS, with inpatient and outpatient programming. Casey House moved into a brand new purpose-built facility and launched a day health program to complement its current array of services in 2017. The Board of Directors is currently recruiting volunteer committee members to fill a limited number of positions on the Finance Committee. We welcome all applicants with experience in financial reporting, audit, risk management and investment fund management and reporting.

The ideal candidate should be a designated accountant in Canada and committed to furthering Casey House's mission, values and strategic direction.

Casey House welcomes applicants from all communities and particularly encourages people living with HIV/AIDS to express interest. Please submit your resume by March 31, 2020 to:
