

Study on the Potential Need for Supervised Injection Services (SIS) at Casey House

Are you a DHP or an inpatient CLIENT at Casey House?

Are you interested in sharing your opinion about potential SIS at Casey House?

If you answered **YES** to both questions above
➔ we would like to speak to you.

We are researchers from the University of Toronto who want to learn about opinions concerning the potential need for SIS at Casey House. We are working in partnership with Casey House. We will be conducting a survey during the week of Dec 3rd, 2018.

If you are interested in participating in this survey you should know that:

- We will ask you a couple questions to make sure you are eligible
- The study involves a 10 minute anonymous survey

If you are interested in participating please come to the lobby at Casey House on the following days:

Tuesday Dec 4th – from 10 am to 3 pm

Thursday Dec 6th - from 10 am to 3 pm

Friday Dec 7th - from 10 am to 3 pm

This study is led by Dr. Carol Strike, Professor at the Dalla Lana School of Public Health and has been approved by the University of Toronto Research Ethics Board
